

■ ENGINEERING ■ ARCHITECTURE ■ DESIGN-BUILD ■ GEOSPATIAL SOLUTIONS ■ SURVEYING

Merrick & Company provided full infrastructure design services for this 74-acre, 290-lot residential development which includes a golf course on the east boundary of Ft. Lupton, Colorado.

Project elements include:

- 6000 linear feet of 8" to 12" waterlines
- 6000 linear feet of 18" to 24" sanitary sewer
- 1000 linear feet of outfall sewer
- 8200 linear feet of street system

Services which Merrick is currently providing include the following:

- Surveying
- Platting
- Street design
- Drainage engineering
- Water system design
- Sanitary sewer system design
- Storm sewer design
- Construction consulting
- Construction staking

Merrick closely coordinated its designs with the City of Ft. Lupton.
