

■ ENGINEERING ■ ARCHITECTURE ■ DESIGN-BUILD ■ GEOSPATIAL SOLUTIONS ■ SURVEYING

Merrick & Company was selected by the Panattoni Development Company and CentreTech Business Park to provide site engineering for Raytheon Company's new two-building campus in Aurora's CentreTech Park. The campus houses 1800 employees of Raytheon Company's Strategic Systems Business Unit.

This development is located on a 15-acre site bordering South Airport Boulevard and East Tollgate Creek, near 1st Avenue in Aurora, Colorado. Merrick is responsible for design, surveying, site engineering (grading, drainage, utilities, streets, and parking lots), and permit approvals for all the site development associated with this project.

This project involved close coordination with the project team, City of Aurora's various engineering departments, Aurora Parks and Recreation, and Fleisher-Smith's Business Park Development team.

Work elements included the following:

- Design
- Surveying
- Platting
- Site Engineering
- Utility Designs
- Storm Water Quality Systems
- Street Entry Designs
- Parking Lot Designs
- Permitting
- Construction Surveying and Staking
