**FOR IMMEDIATE RELEASE**

## **Kray Joins Merrick & Company's Science & Technology Group**

Aurora, CO – January 17, 2011– Randy Kray, AIA, has joined Merrick & Company's Science & Technology group as Director of Laboratory Architecture. In this role, Kray will be responsible for directing projects and extending Merrick's global reach in project development and execution.

"Randy's addition to our Science & Technology group further expands Merrick's position in the market," said Brad Andersen, Vice President, Science & Technology. "We're continually working on a global basis and his expertise in serving this market will support the firm's clients in advancing their programs."

Kray's career has focused on the science and technology market. His past experience includes completed work for the U.S. Centers for Disease Control and Prevention, the National Institutes of Health, the U.S. Army Medical Research Institute of Infectious Diseases, the University of California, Tulane National Primate Center, the University of Florida, and the Bioscience Research Centre. He is a member of the American Biological Safety Association, the European Biological Safety Association, and the American Association for Laboratory Animal Science. Kray holds a Masters of Architecture from the University of Manitoba, Canada as well as a Bachelor of Environmental Science from the same institution.

Merrick & Company is a \$100 million engineering, architecture, design-build, surveying, and geospatial solutions firm, serving domestic and international clients in the energy, national security, science and technology, and infrastructure markets. The firm is committed to sustainable design and construction practices through its 55+ LEED-accredited professionals and is continually expanding its in-house resources to serve tomorrow's needs. The employee-owned company maintains nine offices in the U.S. as well as offices in Canada and Mexico.

More information about Merrick & Company is located at the [Merrick & Company Newsroom](#).
