FOR IMMEDIATE RELEASE

Merrick Expands Civil Engineering Group With New Hires and Promotions

Aurora, CO – January 6, 2010 – Merrick & Company has expanded its civil engineering group ([Merrick Civil Engineering Solutions](#)) with the addition of two new staff and the promotion of several key team members.

Michael Martin PE, LEED AP, a 10-year employee of Merrick, has been named public sector market leader. Martin will expand his project management responsibilities and will now pursue new public sector project opportunities for the firm.

John Holland PE, LEED AP, has been named civil discipline leader where he will be responsible for overseeing the technical portion of the civil engineering group's work. This will include developing and maintaining standards, software and training, and quality assurance and control.

Scott Jardine PE, LEED AP, has been promoted to a civil discipline representative for district engineering and public works. Troy Kelts PE, was recently hired by Merrick to fill a similar role as a civil discipline representative for the private sector.

Aaron Seal PE, LEED AP, was recently hired as the Colorado Federal civil team leader for Merrick, where he'll focus on Federal projects for the firm.

Merrick & Company, an \$85 million engineering, architecture, design-build, surveying, and geospatial solutions firm, serves domestic and international clients in the infrastructure, energy, security, life sciences, and mapping markets. With a focus on civil infrastructure, the firm's most recent work includes system-wide upgrades for the Bancroft-Clover Water and Sanitation District, road improvements for a portion of Arapahoe Road between Holly and Colorado Boulevard, and continuing infrastructure work at the RidgeGate master planned development.

Additional information about Merrick is located on the firm's website at www.merrick.com or at the firm's online newsroom [Merrick Newsroom](#).
