## FOR IMMEDIATE RELEASE

### Newly Certified GISP's Announced by Merrick & Company

Aurora, CO – August 28, 2009, – [Merrick & Company](#) is pleased to announce the certification of six individuals as Geographic Information Systems Professionals (GISP). The certification is provided by the GIS Certification Institute, GISCI, a professional organization that establishes professional practice standards and competencies and certifies individuals in ethical conduct and professional practice. Applicants must meet certain standards in educational achievement, professional experience, and contributions to the profession in order to be certified.

The individuals now certified in Merrick's Aurora, Colorado office include Rogelio Aguayo, photogrammetrist II; Silvio B. Aguilar, photogrammetrist II; Gerald M. Boyd, GSS project manager; Yaneev Golombek, GIS coordinator; Jonathan R. Stanwood, senior LiDAR specialist and Brian W. Holzworth, project manager.

Merrick & Company, an \$85 million [geospatial solutions](#), engineering, architecture, design-build, and surveying firm, serves domestic and international clients in the mapping, government, energy, life sciences, and infrastructure markets. With a focus on geospatial surveying and remote sensing services, the firm's most recent work includes LiDAR, mapping, and surveying projects with Xcel Energy, the U.S. Air Force, the Colombian Navy, the U.S. Army Corps of Engineers, and the St. John's River Water Management Authority (FL).

More information about Merrick can be found at the [Merrick & Company Newsroom](#).
