# ASSET MANAGEMENT SERVICES

[www.merrick.com](http://www.merrick.com) | [hello@merrick.com](mailto:hello@merrick.com)

## SMARTER INVESTMENTS, SUSTAINABLE FUTURE.

We understand the challenges municipalities face in managing aging infrastructure, limited budgets, and evolving regulatory demands. Our asset management services empower you with data-driven insights, intuitive tools, and strategic planning support—so you can make smarter investments today that deliver into the future.

**We don't just deliver data—we build partnerships.** Our team blends technical expertise with practical experience to help you assess current conditions, prioritize improvements, and identify and secure funding, leading to long-term savings.

## Your Data... Visualized

Our flexible approach provides you with the resources to perform condition assessments, giving you accurate data to inform capital improvement planning. From ESRI GIS phone-based applications to LiDAR and 3D modeling, we will provide the right tools for your system.

Scan to see the technology in action!

## OUR APPROACH EMPOWERS YOU WITH DATA

### Asset Inventory & Data Review

We partner with you to understand your team's goals and operational practices. We will pair your institutional knowledge with existing system documentation to create the right asset inventory framework.

### Field Assessment & Condition Evaluation

We use risk-based prioritization as we assess the condition of your assets and document your results with GIS-linked data for easy sharing and updates.

### System Analysis & Capital Planning

We evaluate system performance and identify vulnerabilities using predictive analytics. You will receive intuitive tools you can use to prioritize system improvements and develop a Capital Improvement Plan to meet future needs.

*Funding Support Makes Your Project Reality*
