# BIOSOLUTIONS TO **BETTER OUR WORLD.**

Your biofuels and renewable natural gas (RNG) projects are fueling the future while reducing carbon emissions and driving progress towards a net zero world. These projects create a sustainable path forward for our planet—and we're here to help. Our experience includes working with a wide range of feedstocks and processes, and we'll leverage this knowledge to choose technology and equipment that will maximize your production of sustainable products. From RNG to sustainable aviation fuel to advanced or cellulosic biofuels, we have the right expertise to support you from inception to project completion. Whether you're just getting started or have established operations, we'll help you maintain flexibility throughout your project's life cycle and minimize carbon emissions to reach your net zero goals.

**We design projects using any feedstock, including:**

Cellulosic

Wastewater Biosolids

Animal Manure

# HELPING YOU BUILD **A SUSTAINABLE PATH FORWARD.**

**Our biofuel and renewable natural gas experts will use innovation and our knowledge of cutting-edge technologies to help you:**

**Develop your technology from initial conception to product delivery**

**Maximize your project's value using multidisciplinary engineering expertise**

**Streamline production processes**

**Evaluate, choose, and design the best technology for every process**

**Maintain flexibility throughout your project's life cycle**

**Bring your idea to reality, from pilot to commercial scale**

**Optimize your design to meet net zero goals**

# SUPPORTING YOU AS YOU FUEL THE FUTURE.

We're your partner from conceptual design to startup and commissioning for projects of every type, including:

Renewable Natural Gas (RNG)

Sustainable Aviation Fuels (SAF)

Advanced Biofuels

Cellulosic Biofuels

## WE OFFER A FULL RANGE OF MULTI DISCIPLINE SERVICES

Mechanical  
& Industrial  
Equipment

Electrical, I&C  
Automation &  
Integration

Process &  
Packaging

Water &  
Wastewater  
Treatment

Facilities  
& HVAC

Geomatics

Structural  
& Civil

Architectural  
(GMP & Hygienic  
Zoning)

# MERRICK BY THE NUMBERS

FOUNDED  
in **1955**

EMPLOYEES  
**1100+**

**100%**   
EMPLOYEE  
OWNED

**29**  
OFFICES in

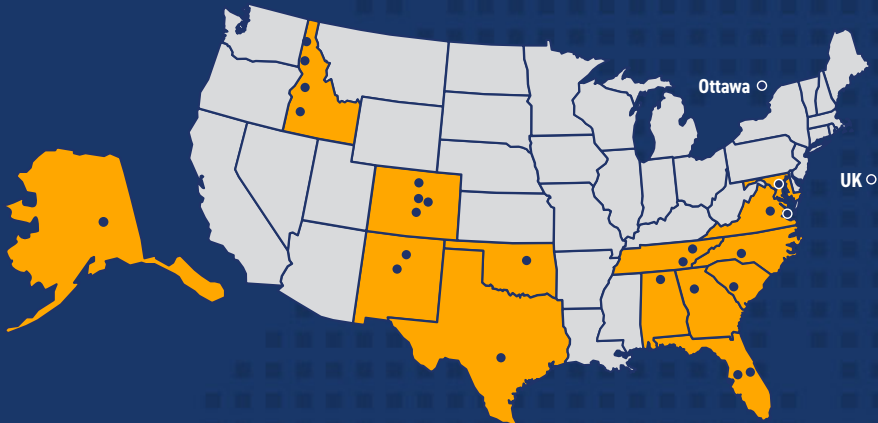

**3**  
COUNTRIES

**7**  
CONTINENTS  
worked on

No matter the feedstock, technology, or service needed, we can help bring your biofuel and RNG project to life. **Together, we can fuel the future.**

LOCATIONS

**Merrick & Company Corporate Headquarters**

8051 E. Maplewood Avenue, Suite 300

Greenwood Village, CO 80111
