## Life Sciences

Since our first federal project in 1982, Merrick & Company has expanded our experience across a diverse set of markets, including defense, intelligence, and energy. As our firm has grown, so has our federal family. Today, we support the goals of a wide variety of federal agencies. We are a full-service engineering, architecture, and geospatial firm offering end-to-end planning, design, commissioning, and construction phase services. We offer expertise in renewable energy; nuclear energy; water and infrastructure; geomatics; high performance facilities; high containment laboratories; and sustainability. Our 27 office locations and history with federal clients provide us with a deep well of experience to pull from for any type of federal project. With an in-depth understanding of the challenges facing our federal clients, Merrick is at the forefront of delivering innovative solutions.
