

# GLOBAL HEALTH SECURITY

[www.merrick.com](http://www.merrick.com) | [hello@merrick.com](mailto:hello@merrick.com)

## An Infectious Disease Threat Anywhere is a Threat Everywhere

The need to prevent, detect, and respond to biological threats is more apparent than ever. The Merrick & Company (Merrick) team's experts in biosurveillance; biosafety and biosecurity; and biorisk management approach global health security in a holistic way to ensure both health and economic security.

### PREVENT

- Risk, Threat, and Vulnerability-Based Assessments
- Custom Biosafety and Biosecurity Training
- Biotechnology Consulting
- Program Documentation Support (e.g. manuals, policies, SOPs)
- Best Practice and Guideline Development and Operationalization
- Biorepository and Transition Management Consulting

### DETECT

- Laboratory Design Reviews and Consulting
- Biosafety and Biosecurity Management Program Reviews and Augmentation
- Cybersecurity and Biosurveillance Consulting

### RESPOND

- Strategic and Operational Planning
- Laboratory and Containment Design; Renovation; and Commissioning
- Institutional Committee Support and Consulting
- Biosafety and Biosecurity Policy/Legislative Development

## Where We Work

Our team has worked supporting global health security across the globe. We focus on projects we feel bring significant progress towards health, agricultural security, and scientific development that have high chances of having a truly sustainable impact.

### The Merrick Biosafety & Biosecurity Consulting Advisory Board (CAB)

The Merrick Biosafety & Biosecurity Consulting Advisory Board (CAB) is our network of global life sciences experts and advisors that focus on addressing the growing challenges of biosafety and biosecurity across the globe.
