

INDUSTRIAL & MANUFACTURING

MERRICK®

in X f @ v
www.merrick.com

A welder wearing a dark protective helmet and gloves is working in a dark industrial environment. Bright sparks are visible from the welding process. A green circular graphic element is overlaid on the left side of the image. The background is dark with some blue and purple light accents.

YOUR EXPERT **ON THE INSIDE**

Bring our expertise into your operations with a project team that understands your manufacturing facility inside and out. We know you and how you do business, which allows us to anticipate your needs and create tailored solutions for you. With a complete array of in-house services, we make it simple to coordinate your entire project from start to finish. We build one project team that is with you throughout your project's entire life cycle. This level of familiarity with you and your operations allows us to remain flexible and responsive to your facility's changing needs. And we focus on delivering quality engineering documentation the first time, so there are few or no change orders for your project— keeping your cost, operation downtime, and client disruption to a minimum.

MINIMIZING DISRUPTION TO YOUR OPERATION WHILE ENSURING SMOOTH CLIENT DELIVERY

With critical capabilities in-house, we streamline
your project **from conception to completion.**
