

WASTEWATER

MERRICK[®]

www.merrick.com

WE'RE WHERE **YOU ARE.**

Personalized problem-solving
to meet your needs.

Wastewater is the backbone of your community. And your wastewater operations must function reliably—and invisibly—in the background of your community members' lives. Our wastewater experts will help you optimize your facility and ensure your operations run smoothly, without interruption. We'll quickly respond to issues when they arise and work alongside you to get to the root of your project's challenges. Our funding and finance strategy experts will also help you explore and identify the right funding sources to bring your project to life. *Whether you're rehabilitating or optimizing an existing facility or building new infrastructure, we'll partner with you to support your community's day-to-day needs.*

Our project team has expertise with a wide array of wastewater resource projects, including:

- | Wastewater Collection Systems
- | Wastewater Pump Stations
- | Interceptors and Relief Sewers
- | Sewer System Rehabilitation
- | Wastewater Treatment Plants
- | Sludge Treatment and Disposal
- | Process and Hydraulic Modeling

Guiding you to the right solutions
for your community.

Supporting you through
every step of your project.

Whether you're in the planning phase, implementing improvements to optimize existing operations, or constructing new infrastructure, we meet you where you are. **We'll support you with:**

| Facility and Master Planning

| Strategic Funding Planning, Implementation,
and Support

| Design Services

| Start-up and Commissioning

| Process Modeling and Optimization

| Capacity, Operations, and Laboratory Audits

| Construction Administration, Inspections,
and Quality Control

| Capital Improvement Planning

| Permitting and Regulatory Requirement
Support

| Water Rate Development

| Utility Operations and Management
Assessments
