

WATER

MERRICK®

www.merrick.com

WE'RE WHERE YOU ARE.

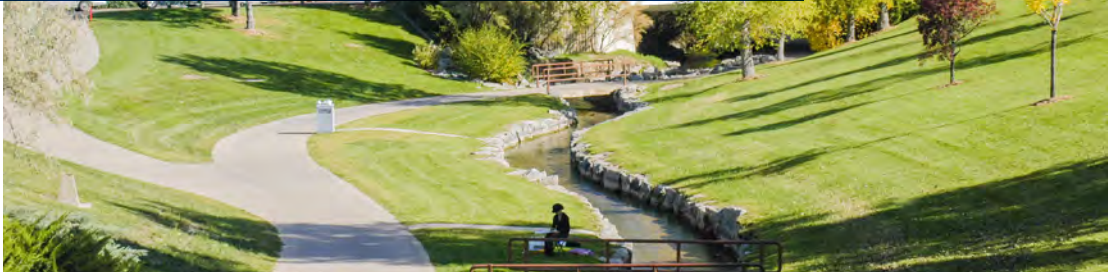

Water is a fundamental element of the human experience. Your community depends on you for a clean and reliable water supply—and the work you do helps your community thrive. Our water experts understand how vital it is for your operations to perform at their fullest potential. We'll help keep your operations running smoothly and quickly respond to issues when they arise. Whether you're rehabilitating or optimizing an existing facility or building new infrastructure, we'll meet you where you are and jump in at a moment's notice to help you select the best options for your project. And our funding and finance strategy experts will help you explore and identify the right funding sources to bring your project to life. *We're committed to getting your project to the finish line. Let's partner to create innovative water solutions that help your community flourish.*

Personalized problem-solving
to meet your needs.

Guiding you to the right solutions
for your community.

Our project team has expertise
with a wide array of water
resource projects, including:
